A big "THANKS" to Skip for the great club buttons. They are perfect for any club occasion. A great example of member-support. If you have an idea to help the club, don't hesitate to come to the board meetings (every month - on the first Wednesday), or tell any club board member. We need to keep changing for the better!!

### HARRY'S HELPFUL DANCE "TIPS"

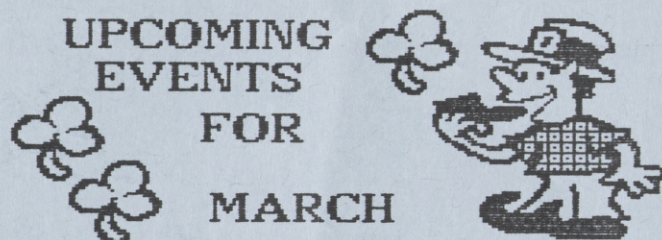

Don't drink (alcohol) before dance night - the whole square suffers!

## BE AN ANGEL!

Come to class early and help the beginner's class learn square dancing. The beginners can use your help, and most of us can use the practice. Get to know the new dancers, and let them get to know you. If we help the class, we might be able to combine the two groups and all dance at the same time!

## HARRY'S HELPFUL DANCE "TIPS"!

If you have been fortunate enough to  
advance beyond what is being taught now,  
be considerate of the other square  
dancers. Fancy frills look nice if all are  
in tune and are able to participate.  
Advanced methods of dancing only cause  
confusion for those who are learning  
(i.e. only clapping on a Star Through or  
not following through on calls) at lower  
levels.

## EDITOR'S COLUMN

by the  
NEWSLETTER  
STAFF

We've decided to approach a subject which  
borders on the theme of last month's  
column. The concern that was primarily  
intended, in that column, pertains to the  
club's inability to move ahead as a group,  
due to the different skill levels of our  
club members.

We have a situation where some members  
have completed Plus training, and either  
want to practice or move ahead. Others  
missed some or most of the training, for  
particular reasons, and need to learn  
certain calls. We have some members who  
are concentrating on the new calls, and  
forgetting basics. This environment  
causes frustration for all, when squares  
break down constantly, and many people  
respond negatively. This causes hurt  
feelings, pointing fingers (Flying Fickle  
Finger of Fate?), and low attendance at  
Dance night (one of the causes, mentioned  
above!).

We have put together a list of possible  
(impossible) solutions and/or alternatives.

1. For those people who feel they are  
having problems with calls, consult your  
square dancing call books (Where did  
you put that informative paperback  
with those cute pictures?) or any  
square dance book (library or square  
dance store).
2. If there is enough interest, a special  
practice night might be arranged.
3. Go out and practice with other callers  
and other clubs in the area, to  
experience new positions, dancers and  
combinations of calls.
4. When you're sitting out (because of  
tight high-heels or loose combat  
boots!) watch a good dancer and follow  
their movement through the square, as  
they execute the calls.
5. Practice with the beginners, either all  
or part of the night (they would love  
your help!).

We really do think there is a problem, and  
we need to be thinking of ways to improve  
the club and get the maximum enjoyment  
out of square dancing. Let's hear your  
views on the subject.

## CCS CLUB NEWS

FEBRUARY POT LUCK

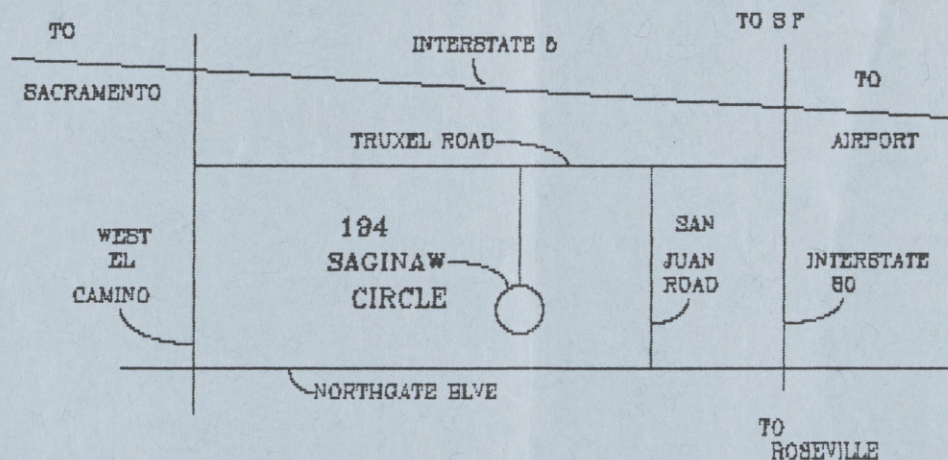

at Ron Buckner's house

194 Saginaw Circle  
(see map below)

FEB. 20TH

7 pm to 10 pm

BYOB & an entree.

In March, we will be nominating members for Pres., V Pres, and Treas., according to the by-laws. Think about who would make a good candidate, and be sure to ask them if they are interested, BEFORE nominating them.

In April, we will be voting for a new Pres., V Pres, and Treas. Another issue to appear on the ballot, will be whether to include the word "Lesbian" in the title "I.A.G.S.D.C.". Think about it!! If you have a strong opinion, write something up for the newsletter.

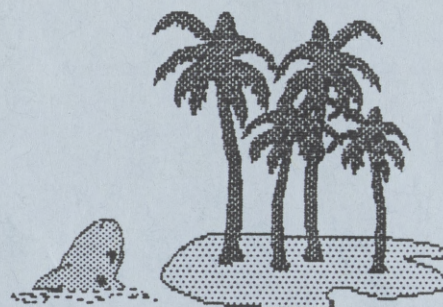

We hope to see Joy and Margaret at the club dance nights, in the future - We'll hide the tables from now on!! Glad to hear you are OK, Margaret!!

We're also glad to hear that Roy is doing so well. Hope to see him in Clear Lake.
